## SUMMARY

A highly motivated MERN-stack developer with a proven track record of architecting and delivering responsive, user-centric web applications. Expert in React.js for crafting intuitive interfaces and in Node.js/Express.js and MongoDB for building robust, scalable back-end systems. Adept at designing and integrating RESTful APIs to enable seamless data flow, collaborating across cross-functional teams to drive high-quality, performance-optimized solutions in fast-paced environments.

## SKILLS

- **Frontend Development:** HTML, CSS, Bootstrap, JavaScript, React.js, Material UI, Tailwind Css.
- **Backend Development:** Node js, Express js, Middleware Implementation.
- **Database Management:** MongoDB(CRUD operations, indexing, aggregation framework).
- **Version Control:** Git, GitHub.
- **API Integration:** REST APIs.
- **Tools & Technologies:** Visual Studio Code, Postman, Chrome DevTools.
- **Responsive Design:** Mobile-first, cross-browser compatibility.

## EDUCATION

<b>Master of Computer Applications – Computer Application (MCA)</b>	2023 – 2025
• Vishwakarma University Pune   CGPA:8.21   2025	
<b>Bachelor of Computer Applications</b>	2020 – 2023
• H. V desai College Savitribai Phule Pune University  CGPA:7.82     2023	

## Internship Experience

<b>DevifAI – Full Stack Developer Intern</b>	<i>Duration: 5 Months (28 June 2025 – 30 Nov 2025)</i>
<ul style="list-style-type: none"><li>• Developed multi-step pages and interactive dashboards using React.js and Tailwind CSS, enhancing UI responsiveness and user engagement.</li><li>• Integrated backend APIs with frontend components using custom React hooks to ensure seamless data flow and dynamic content updates.</li><li>• Designed and maintained RESTful APIs to enable efficient communication between frontend and backend services.</li></ul>	

## Projects

<b>QuickPick (Real-Time Grocery Delivery App)</b>	QuickPick – Blinkit Clone
• Built a Blinkit-style grocery delivery platform using MERN stack with real-time inventory and admin control.	
• Used Socket.IO for live order updates and bcrypt + JWT for secure user authentication.	
• Enabled product browsing, cart, order tracking, and role-based dashboards.	
• <b>Tech Stack:</b> React.js, Node.js, Express.js, MongoDB, Socket.IO, JWT.	
<b>OutfitHub (Full Stack MERN E-Commerce Platform)</b>	OutfitHub
• Implemented features like user authentication (JWT), product filters, cart, order system, and admin dashboard.	
• Integrated Stripe for secure payments and MongoDB for dynamic product management.	

## ADDITIONAL INFORMATION

### Certifications:

- MERN Stack Development – SpeedUp Infotech
- Programming in C, C++, Java, and Python – CGPI Acdedmey
